

Raya Attendance — Web Dashboard Options

Every page, tab, button and setting of the dashboard

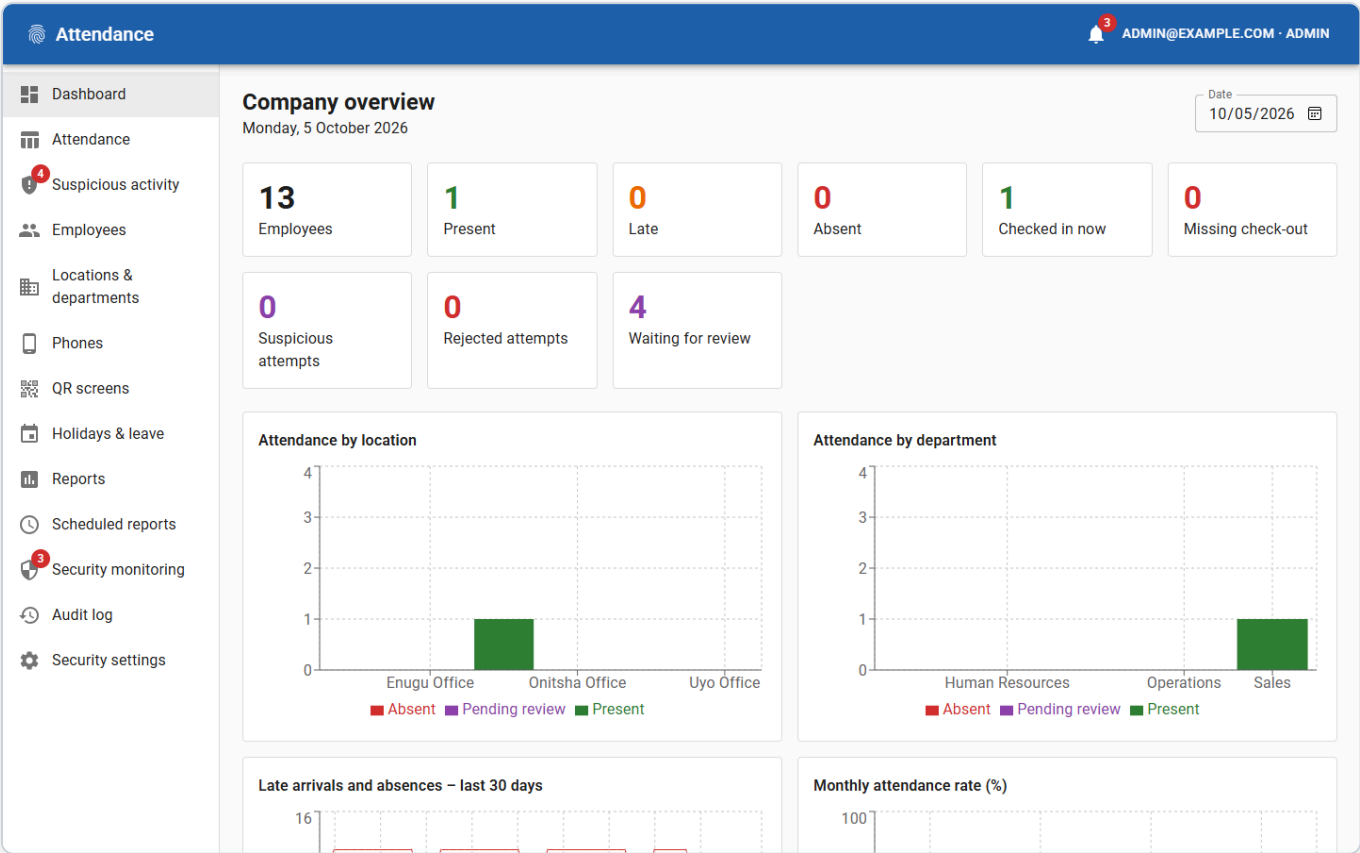

This reference explains every page of the web dashboard (<https://raya.34.35.174.159.nip.io>) from top to bottom. For the setup order and the daily routine, see the **Dashboard Guide**. Pages marked **HR** are visible to HR and admins; managers see the Dashboard (their team) and Reports.

The frame around every page

Part	What it does
Menu (left)	Goes to each page. A red number shows how many items wait for you (e.g. check-ins to review, open security alerts).
Bell (top right)	Notifications: new flagged check-ins, phones waiting for approval, security alerts, ready reports. Click to read them.
Your name · role (top right)	Menu with Change password and Log out .

Dashboard (company overview)

The first page: how today looks for the whole company (managers: their team).

Attendance

One line per employee for the chosen day.

Employees

Option	What it does
ADD EMPLOYEE	Creates a person: full name, employee ID, email, phone, role, department, manager, check-in locations. After CREATE the temporary password is shown once – give it to the employee privately.
EDIT	Changes details, role, manager, and the employment status (Active / Suspended / Terminated) and whether they can log in.
LOCATIONS	Where this person may check in; the first (★) is the main workplace.
RESET PASSWORD	Creates a new temporary password (shown once) and logs the person out everywhere; they must choose a new password at the next login.
Search	By name, ID or email.

Locations & departments (HR)

The structure of the company.

New scheduled report

Security monitoring (admin)

An overview of security over the last 30 days.

Security monitoring

Option	What it does
OVERVIEW	Open alerts, security events, failed logins, locked accounts, and the audit-log check (CHECK NOW) that proves no record was changed or deleted.
ALERTS	Alerts raised by the rules: mark I'm checking it or Resolve .
ALERT RULES	When an alert is raised (e.g. many failed logins from one address, repeated fake GPS) and how serious it is.
DATA RETENTION	How long each kind of data is kept before it is removed automatically (e.g. exact GPS positions 1 year, attendance 7 years).

Security monitoring

OVERVIEW ALERTS ALERT RULES DATA RETENTION

Checked every minute. New alerts appear under the bell for HR and Admin.

Rule	Severity	What it looks for
Account locked	HIGH	An account was locked after 5 wrong passwords in a row (someone may be guessing it).
Many failed logins from one address	HIGH	20 or more failed logins from one internet address within 15 minutes, on any accounts.
Possible stolen session	HIGH	A login session token was used twice. The session was ended for safety, the person must log in again.
Phone used by two employees	HIGH	An employee tried to register a phone that already belongs to another employee.
Repeated fake location or tampering	HIGH	3 or more serious check-in problems (fake GPS app, modified app or phone, bad signature, copied request) by one employee within 24 hours.
Unusual number of suspicious check-ins	MEDIUM	15 or more check-in security events across the company within one hour.
Audit log tampering	CRITICAL	The nightly check found that audit log entries were changed or deleted outside the system.

Security settings

Option	What it does
Rules for	The whole company (default) or a single location (or <i>Use company rules</i>).
Verification method	GPS only, or GPS + office QR code.
When a check fails	For each check – outside the office radius, weak GPS, old GPS reading, fake-GPS app, phone clock changed, impossible travel speed, app/phone integrity, office QR – choose Allow (record only) Flag for HR review or Reject .
Limits	Worst accepted GPS accuracy, oldest accepted GPS reading, time to complete a check-in, highest believable travel speed, allowed phone clock difference.
Count flagged attendance before review	If on, flagged check-ins count until HR rejects them (default: off).

Raya Attendance web dashboard · version 1.0 · Screenshots show demo data from a test copy, not real employees.
