

Raya Attendance — App Options

Every screen, button, status and message · Version 1.0

1. Screens at a glance

Screen	How to open it
Login	Shown when you are logged out.
Change password	First login (automatic), or : menu → Change password .
Home (Attendance)	The main screen after login.
My attendance	Calendar icon on Home.
Scan the office QR code	Opens by itself during check-in if your office requires it.
Reports	Chart icon on Home (managers, HR, admins only).

2. The Home screen

#	Element	What it shows / does
1	Calendar icon	Opens My attendance (your history).
2	Three dots :	Change password and Log out .
3	Profile card	Your name, employee ID, department, Manager , and your Location (main office). If you have several offices: "Also: ...". None assigned - contact HR means HR has not assigned an office yet.
4	Date and clock	Today's date and the current time.
5	Today's status	A coloured status (see the table below), then the day type: Working hours 09:00 – 18:00 , Holiday: ... , You are on leave today or Not a working day . After a check-in: First check-in time and Worked time.
6	Location status	A reminder: your location is checked by the server only at the moment you check in or out.
7	Phone notice	Shown only when needed: This phone is waiting for HR approval... (button Check again) or This phone couldn't be registered. (button Try again), or This phone can't be used for attendance. Please contact HR. (the phone was rejected or switched off by HR).
8	CHECK IN / CHECK OUT	The main button. It shows the next possible action: CHECK IN is green, CHECK OUT is red. It is grey while this phone is not approved by HR. If your office uses a QR code, a line under the button says You will scan the QR code on the office screen.

3. Status labels

Status	Meaning
Not checked in	No check-in yet today.
Checked in	You are checked in, on time.
Checked in · Late	You checked in after the start time plus the grace period set by HR (usually 15 minutes).
Checked in · Pending review	Recorded; HR is reviewing the check-in.
Checked out	You checked out. Hours worked are shown.
Checked out · Late	Checked out; you had arrived late.
Pending review	The day is waiting for HR's decision.
Present	(History) Present on time.
Late	(History) Present but late.
Absent	(History) Working day with no valid attendance.
Holiday	Public or company holiday. Not counted as absence.
On leave	Approved leave. Not counted as absence.
Day off	Not a working day for you (for example Sunday).

4. Results and messages after a check-in

Result card / attempt	Meaning
Checked in / Checked out	Check-in successful. / Check-out successful. With time, office and distance from the office point.
Recorded – pending review	Your attendance was recorded and is waiting for HR review.
Not accepted	The attempt was refused. The card explains why (for example outside the office area, weak signal, or contact HR). The home screen then shows Last attempt was not accepted .
Not completed	A pop-up when the attempt could not be completed (for example no internet).

5. Other screens

Login

Fields: **Employee ID or email**, **Password** (eye icon to show). Button **LOG IN** . Text: "Forgot your password? Ask HR to reset it."

My attendance

Arrows < > change the month (you cannot go past the current month). The summary card shows **Present**, **Late** and **Worked**; each day shows date, first check-in – last check-out, hours, office and a status chip.

Change password

Fields: current (or temporary) password, **New password**, **Repeat new password**. Button **SAVE PASSWORD**. Errors: **At least 10 characters** , **Must be different from the current password** , **The passwords are not the same** .

Scan the office QR code

Point the camera at the QR screen in the office. It changes every 30 seconds, so scan it when you are there; a photo or a forwarded picture of the code does not work.

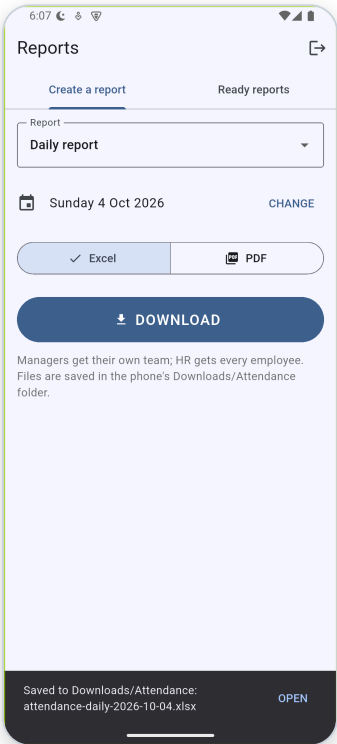

6. Permissions

Permission	Why	When
Location (precise)	To confirm you are at your workplace.	Only at the moment you tap CHECK IN / CHECK OUT. Choose "While using the app".
Camera	To read the office QR code.	Only if your office requires the QR code.
Internet	To send the check-in to Raya's server.	During check-in, reports and login.

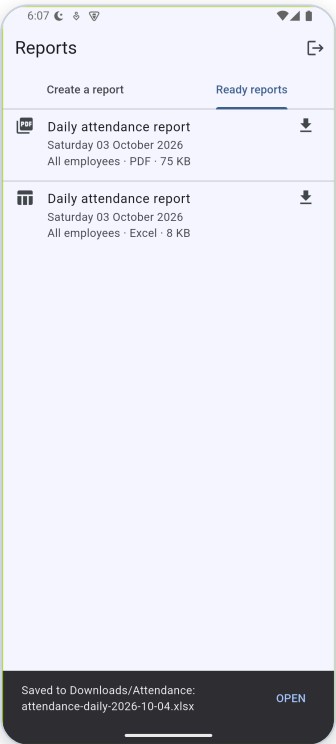

7. Reports (managers and HR)

Only **managers, HR and admins** see the chart icon. Employees do not.

Tab / option	What it does
Create a report	Choose the report , the date (or month, or date range), the format Excel or PDF , then tap DOWNLOAD . The file is saved in Downloads/Attendance ; tap OPEN to view it.
Report types	Daily report · Weekly report · Monthly report · Attendance summary (dates) · Late arrivals · Absences · Suspicious attendance.
Ready reports	Reports created automatically by HR's schedules (for example every Monday). Tap one to download it. Pull down to refresh. Files are kept for a limited time (90 days by default).
Who sees what	Managers : only their own team. HR : all employees.

Create a report

Ready reports

8. Rules to remember

- **One phone per employee**, approved by HR.
- **No offline check-in**: the phone needs internet.
- **The server's clock decides**, not the phone's clock.
- 5 wrong passwords lock the login for 15 minutes.
- Passwords: at least 10 characters, different from the current one, not containing your name, ID or email name.
- Location is read only at check-in / check-out; no background tracking.
